# A *HOME INSPECTION* TOOL
## DESIGNED WITH *HOMEOWNERS* IN MIND

**insure Hive**

**PRYZMIQ**

PryzmIQ was designed to simplify home inspections, addressing the challenges of traditional field inspections and virtual home inspection tools. Its no-app-required, intuitive design makes the process straightforward and convenient.
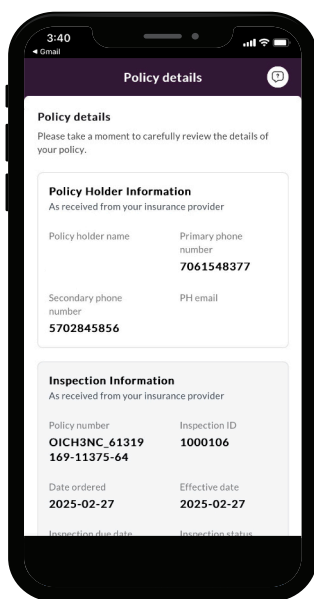

## A SMARTER, MORE EFFICIENT INSPECTION

Homeowners are notified via email when assigned a home inspection and have 14 days to complete it. They can start at their convenience or send their secure inspection link to a trusted party. Automated reminders and notifications ensure timely completion. Photos automatically sync in real-time, allowing homeowners to pause and resume without losing progress.

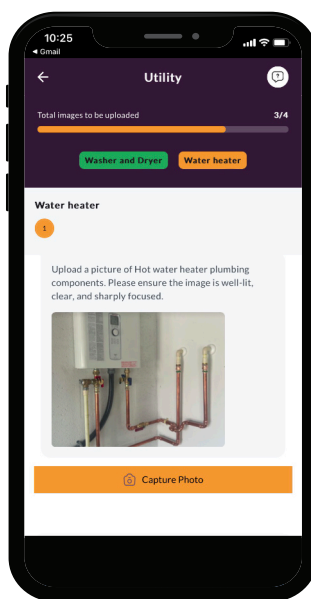

**LOCATION VERIFICATION**

Geo-location confirms the homeowner is at the correct property for added security.

**POLICY DETAILS**

Homeowner is able to review pre-filled policy information to ensure accuracy.

**LOGICAL ROOM FLOW**

Step-by-step prompts, example photos, and a logical room order guide homeowners through the inspection seamlessly.

**SAFE & CONVENIENT**

No climbing, crawling, or squeezing into tight spaces- inspection is designed to be safe, simple, and convenient.

## HOW PRYZMIQ EMPOWERS AGENTS

**A POWERFUL SELLING TOOL**

PryzmIQ provides access to property-specific inspection data, helping agents identify potential risks and recommend additional coverage options. These insights support more informed conversations and long-term client protection—without requiring agents to manage the process directly.

**REAL-TIME AGENT NOTIFICATIONS**

PryzmIQ manages homeowner communication and tracks inspection progress automatically. Agents can view real-time updates as milestones are completed, offering full transparency into each step of the inspection journey.
